

HERMES 512

The ideal solution for calculating without print

The desk top display calculator with easy-to-handle keyboard
and glare free display.

The alternative for the office!

Some performance highlights of model 512:

Design

The functional and modern design gives this calculator a special look. The vertical position of the display avoids annoying reflected light.

Operation

The separation of functions on the keyboard contributes to an easily understood operating logic.

Display

The large digitron display with interpunction facilitates easy and accurate reading. Control lights for negative values, capacity overflow and memory occupation make verification of calculating easier.

Logic

The simple calculating logic and clear key symbols permit immediate operator acceptance.

Specifications
